- HMC
- WordPress
- JSON

REPOSITORIES

SVN, GitHub

PROJECTS

Product Status Automation (HTML5, CSS3, jQuery ,APIs, HMC Tool)

- Once product is launched it finds the launch date of the product.
- Once launched date found then it compares with the current date
- We have 3 scenarios here
    - before 6 months
    - between 6 months to 12 months
    - After 12 months
    - NOTE: in all 3 scenarios will get button with no action
- If the gap between launch date and current date is 6 months and has no price then we will see as "Coming soon" text in CTA layout
- If the gap between launch date and current date is > 6 months < 12 months and has no price then we will see as "not available" text in CTA layout
- If the gap between launch date and current date is <12 months and has no price then we will see as "EOL (End of life)" text in CTA layout

---

Site Map Automation (HTML5, CSS3, jQuery, APIs, HMC Tool)

- I have created the site-map automation project where we are displaying all the products in page.
- There are 3 sections in the page. Coming soon, available products, not available, EOL products
- Based on the same condition given above (Product Status Automation) project all the products will be display in sections automatically

---

Emailer, RTEs (HTML5, CSS3)

- Developed dynamic RTEs based on user interactions, creating personalized emails.
- Created highly personalized emails by leveraging user-specific actions and behaviors.
- Implemented CTA (Call to Action) buttons, Multi-Channel Fragments, user-centric dropdowns, custom text boxes, and Rich Text boxes with responsible design and functionality using Tokens and API calls.
- Ensured compatibility with various email clients and devices such as Outlook, Gmail Chrome, Gmail Mozilla Firefox, Yahoo, Safari, iPads, iPhones, and Android phones.

Pfizer Standard Idetails/DSP(Digital Sales Presentations) (HTML5, CSS3, jQuery, JSON)

- Developed responsive DSPs and iDetails on Veeva CRM and CLM platform, integrated with Salesforce.
- Ensured compatibility and responsiveness across Veeva Engage and iPads.
- Utilized VEEVA Vault and integrated Closed Loop Marketing module with Test Salesforce applications for email testing and triggering.
